03

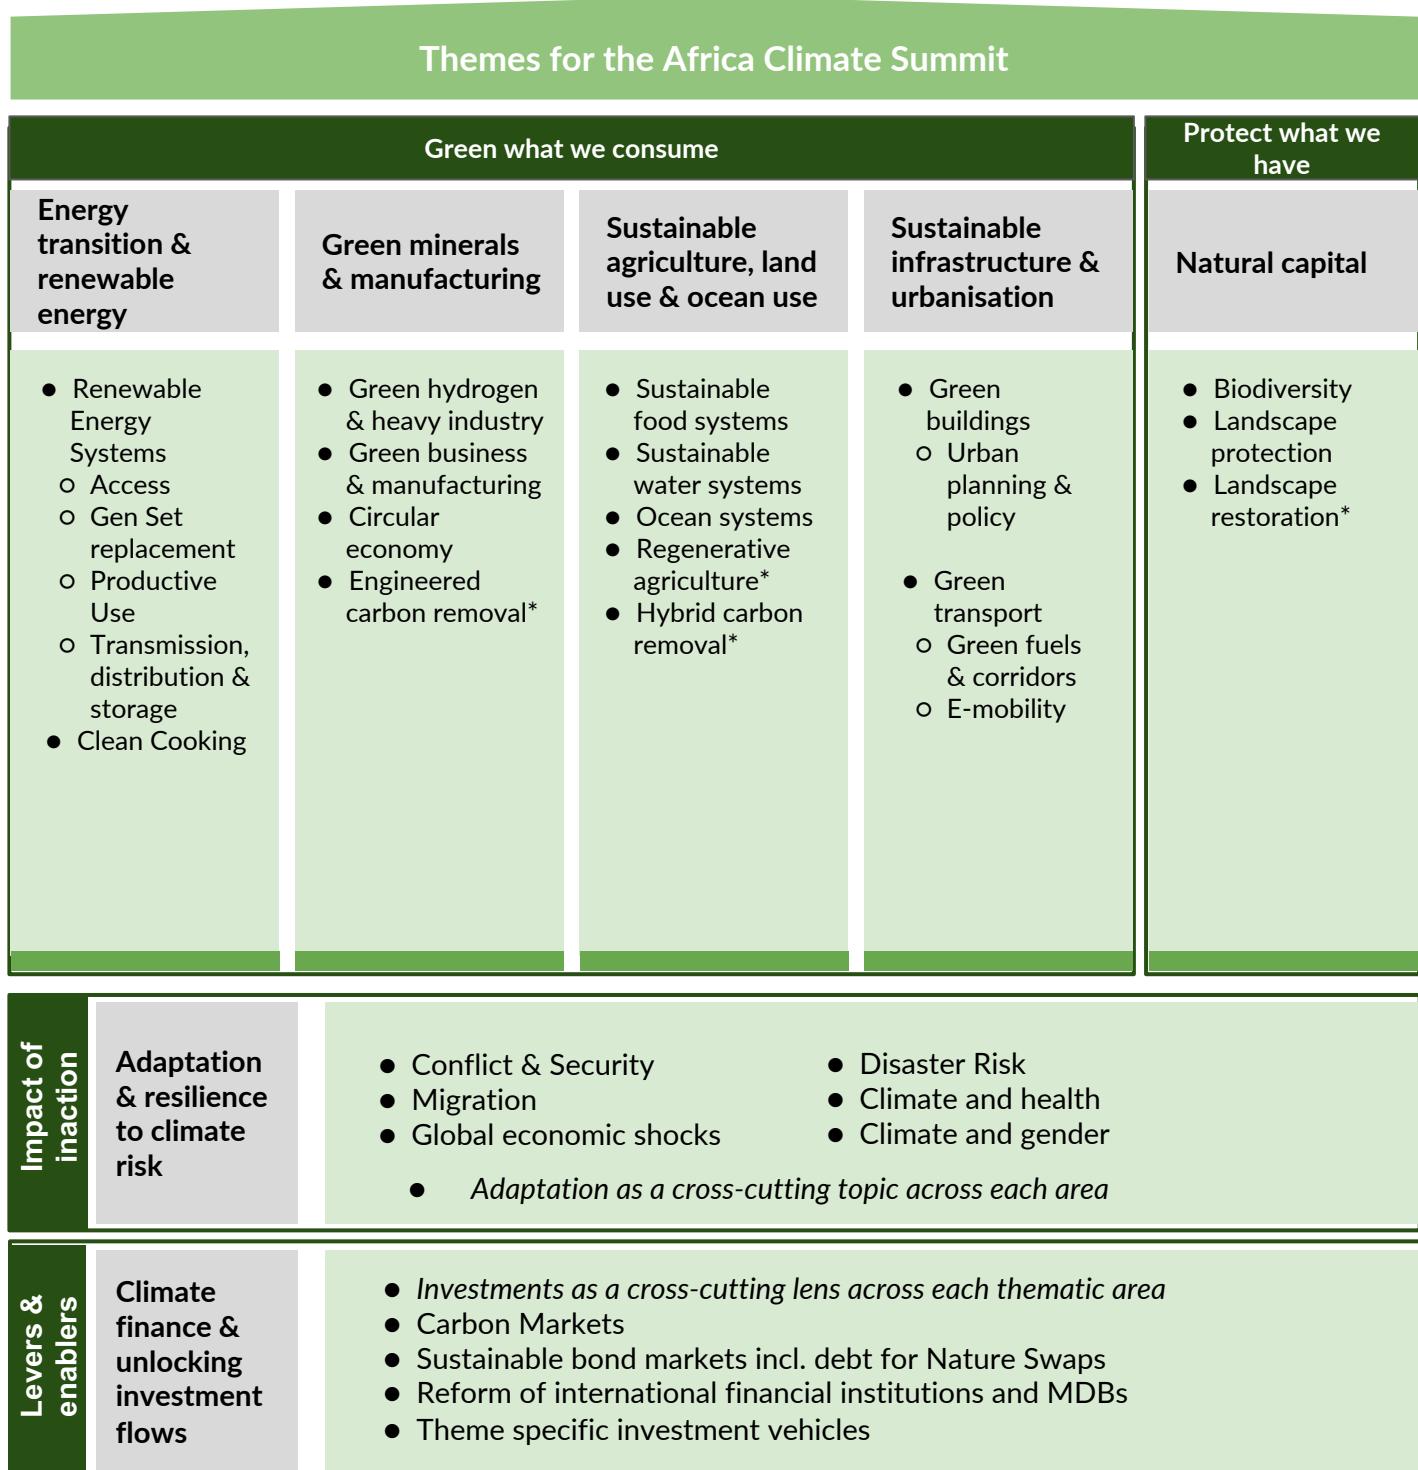

Session agenda  
outline

A wide-angle photograph of a bustling street in Lagos, Nigeria. The scene is filled with a dense crowd of people, many carrying umbrellas. The street is packed with various vehicles, including several yellow and white minivans, a red bus, a white van, a blue car, and a silver SUV. In the background, there are several multi-story buildings, some with blue roofs, and utility poles with multiple wires. The overall atmosphere is one of a very busy and crowded urban environment.

## 01 | Summit Themes and Topics

# Summit themes and topics

The diagram below maps out topic areas within the summit framing, highlighting areas that will be unpacked at a thematic and topical level. **Each individual topic area below can be expanded to encompass various opportunities:**

\* The current pillars don't capture carbon removal holistically (e.g., engineered carbon removal, hybrid carbon removal, landscape and coastal restoration) and may necessitate the inclusion of a distinct theme

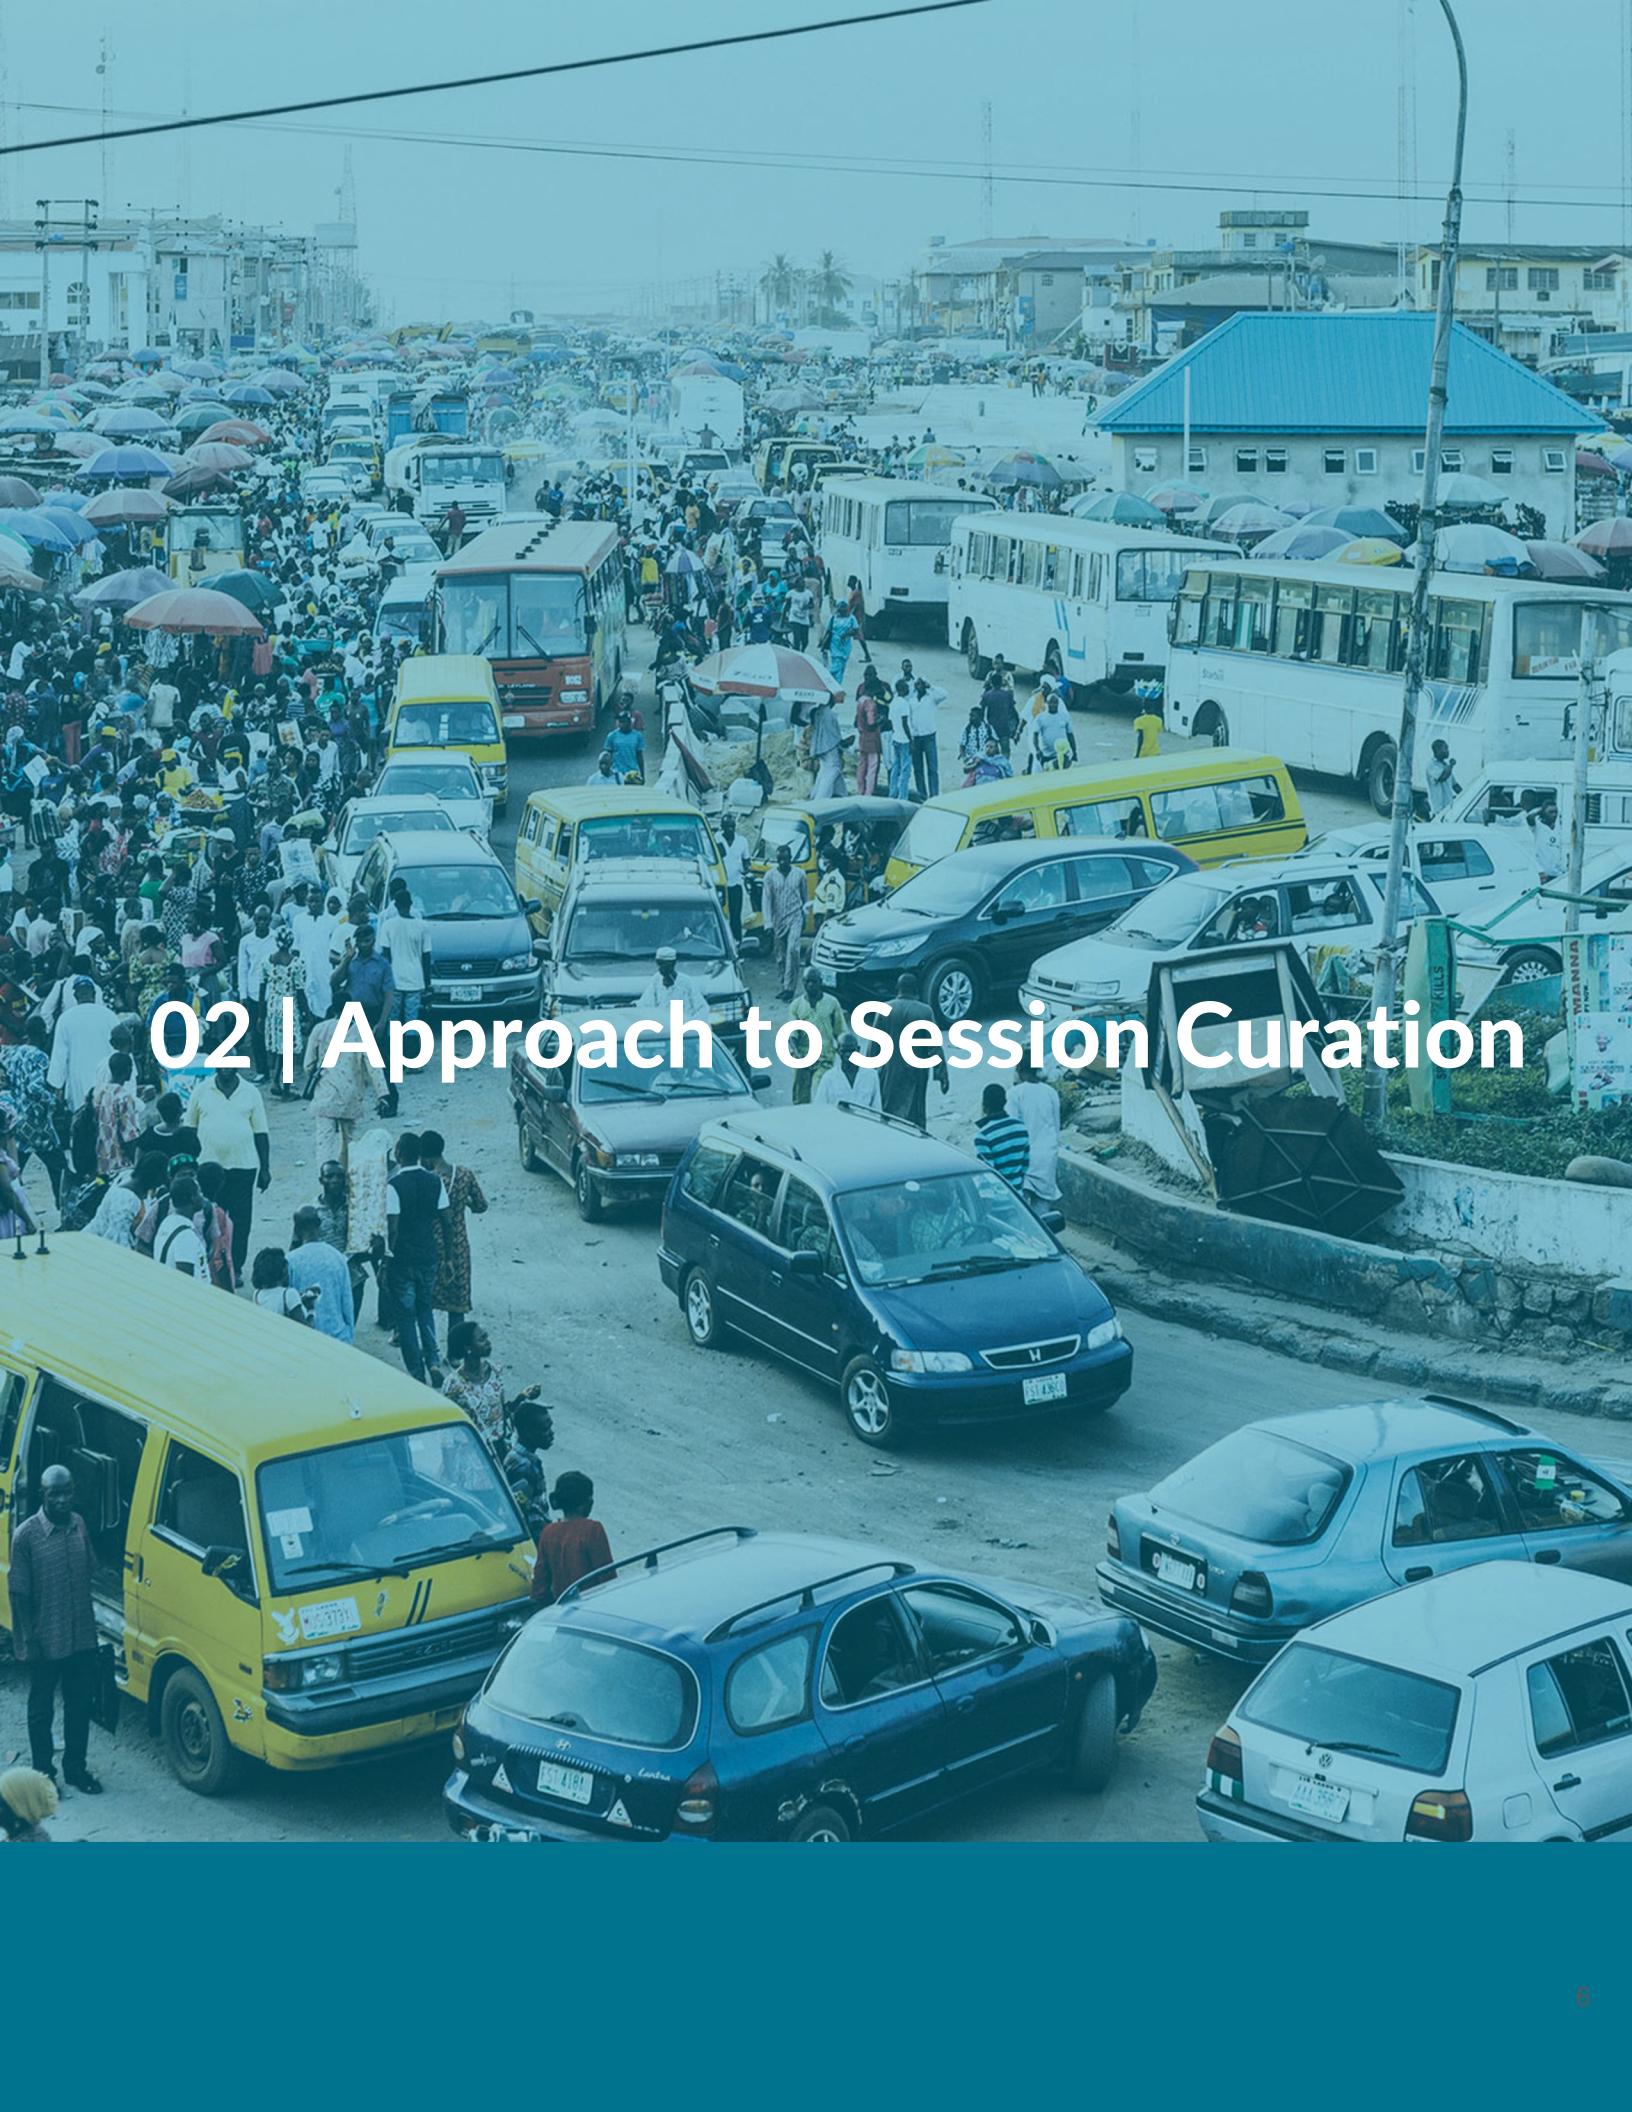

# Thematic leads and strategic partners

Themes for the Africa Climate Summit					
PMO	The Project Management Office will ensure stakeholder communication, management and alignment across pillars and between the Technical Advisory Team, Think Tank and other actors				
	Green what we consume				Protect what we have
	Energy transition & renewable energy	Green minerals & manufacturing	Sustainable agriculture, land use & ocean use	Sustainable infrastructure & urbanisation	Natural capital
Country partners	Country partners will act as champions for specific thematic pillars, driving some of the critical discussions and large-scale announceables.				
Think tank group	The think tank group will play a key oversight role over the development of each thematic pillar, providing technical advice and ensuring that the quality is consistent across each.				
State Technical Lead	State co-leads will provide both technical knowledge as well as linkages to country level and continental level discourse across thematic areas.				
Non-State Technical Lead	Non-state technical co-leads will provide deep technical knowledge on specific themes and topic areas, supporting with the articulation of thematic level content.				
Non-state Technical Support	Non-state technical support will work closely with technical leads to manage the delivery of each thematic pillar, including the engagement and collation of submissions from content partners and the articulation of different session briefs.				
Content partners	Content partners have been identified as independent actors who will support with the co-creation of content				
Impact of inaction	Adaptation & resilience to climate risk	Cross cutting themes will be developed through similar thematic working groups.			
Levers & enablers	Climate finance & unlocking investment flows	Cross cutting themes will be developed through similar thematic working groups.			

# Country partners and thematic leads

## Themes for the Africa Climate Summit

Themes for the Africa Climate Summit					
Green what we consume					Protect what we have
Country partners	Energy transition & renewable energy	Green minerals & manufacturing	Sustainable agriculture, land use & ocean use	Sustainable infrastructure & urbanisation	Natural capital
Country partners	South Africa Nigeria	Mozambique DRC South Africa	-	-	-
State Technical Lead	AU Ministry of Energy	AU Ministry of Mining, Ministry of Energy, Ministry of Agriculture, Blue Economy and Maritime Affairs	AU Ministry of Agriculture Ministry of Mining, Blue Economy and Maritime Affairs	AU Ministry of Transport Ministry of Infrastructure + Housing	AU Ministry of Environment Ministry of Tourism, Wildlife & Heritage
Non-State Technical Lead and support	Lead: SEforAll Strategic support: McKinsey, GEAPP	Lead: Strategic support: CAP-A, SEforALL	Lead: AGRA Strategic support: CAP-A, BCG, FOLU	Lead: ITDP Strategic support: CAP-A, UN-Habitat	Lead: TNC Strategic support: McKinsey, IUCN
Impact of inaction	Adaptation & resilience to climate risk	Country partners State Technical Lead Non-State Technical Lead & support	Egypt, Mozambique, Malawi, Somalia, Sahel countries MoE & AU & EU Lead: Secretariat Team Strategic support: GCA, EU, Africa Adaptation Initiative (AAI)		
Levers & enablers	Climate finance & unlocking investment flows	Country partners State Technical Lead Non-State Technical Lead & Support	... AU and the National Treasury Lead: Secretariat team Strategic support: McKinsey, Think Tank Group,		

A wide-angle photograph capturing a bustling urban scene in Lagos, Nigeria. The foreground is dominated by a dense grid of vehicles, including numerous yellow and white minivans (known as okadas), several larger buses, and a variety of cars. The middle ground is filled with a massive crowd of people, many of whom are carrying umbrellas, suggesting a rainy day. In the background, there are several multi-story buildings, some with blue roofs, and utility poles with multiple wires. The overall atmosphere is one of a very active and crowded city.

## 02 | Approach to Session Curation

# 02 Overview of Theme Notes

Each thematic area will require a crisp, well articulated note (no more than 3 pages), that outlines the opportunities, the sub-themes, champion countries and actors, enabling levers, and potential announceables. Each thematic area should also (a) conceive of a plenary, (b) side sessions that could take the form of deal rooms, project showcases, policy exchanges, or implementation convenings.

Component	Description
<b>African Overview</b>	An articulation of the topic and opportunities within Africa and the core country champions for this thematic area. To identify and align with the Country Partners for each theme.
<b>Opportunity area framing</b>	Definition of specific opportunity areas (including sub-themes) that efforts can be coalesced around, including the potential impact it can have in relation to the economy, job creation, and environmental impacts.
<b>Levers addressed</b>	Definition of the levers and enablers required to substantively create impact in the sector.
<b>Articulation of priority announceables (see criteria on next page)</b>	Identification of the types of announceables within this opportunity area (and why these), their type (i.e., pitch, deal, pledge), their status in development, and an articulation of why these are prioritized based on criteria on slide 8.
<b>Champions needed/ Mobilization plan</b>	Identify (African) country champions who are either (a) front-runners in this theme, (b) intending to or are interested in investing in this space, or (c) have potential to leverage this theme within their countries.  Similarly, identify private investors/companies who are active in this theme who are (a) already investing or (b) might be interested in investing, based on early discussions.  In this section, also outline specifics asks/offers for each identified champion and who can make the ask (e.g., does H.E. Ruto need to call the President? The U.S. Ambassador?)

# 02 Overview of session structures

Within each theme, there will be an overall high level plenary session, as well as adjacent and complementary events to serve different audiences and objectives.

## Topical plenary sessions

Each session will be anchored by a high level plenary. These sessions will introduce the opportunity area, quantify the potential impact, and discuss the levers and enablers required. The event will establish a platform for cross-continental dialogue and establish a position ahead of COP28. **These sessions reflect the core agenda.**

**Thereafter, each topical area will breakout into a series of sessions in line with country and content priorities and emerging announcements. Participants and audience can vary across these sessions and could include ministerial dialogues.**

### Implementation convening

Implementation focused session that looks to shift pledges towards action.  
E.g., what will it take to get 30x30 implemented?

### Deal room

Pitch session including a series of presentations by organisations with proven concepts.  
E.g., regen agriculture investment plan

### Project showcase

Share-out session for organisations to showcase their achievements made, deals secured, and key learnings.  
E.g., how are Kenya, Ghana establishing carbon markets?

**Each of these sessions will be structured differently to actualise slightly different objectives:**

Enable high-level discussion on priorities issues and topics for senior stakeholders

Create a platform for dialogue to establish prospective partnerships, discuss bottlenecks, partnerships, and find a path forwards.

Call to action for investment deals and partnerships that will drive scale

An opportunity to demonstrate the achievements made, deals secured, key learning, success stories and best practice.

## Innovation and Exhibition Space

Concurrently, organisations present their innovations, products and work in exhibition booths in a space adjacent to the sessions

# Speakers and target audience for each session type

A series of stakeholders have been identified to support with summit planning and delivery:

Session type	Speakers / Presenters	Target audience
Topical plenary	<ul style="list-style-type: none"> <li>● Presidents and Senior Ministerial Representatives of country partners for each theme</li> <li>● Directors of key global institutions</li> <li>● CEOs from pivotal organisations</li> </ul>	<ul style="list-style-type: none"> <li>● Investors</li> <li>● Academia</li> <li>● Bilateral and multilateral orgs</li> <li>● Development partners</li> <li>● Technology providers</li> <li>● Implementers</li> <li>● Policy makers</li> <li>● Media &amp; general public</li> </ul>
Implementation convening	<ul style="list-style-type: none"> <li>● Organisations and public actors with a commitment or an intention of what an initiative tends to achieve in the next phase of growth</li> <li>● Partners key in implementation</li> </ul>	<ul style="list-style-type: none"> <li>● Ground operators</li> <li>● Sector bodies or alliances</li> <li>● National and regional policy makers</li> </ul>
Deal room	<ul style="list-style-type: none"> <li>● Organisations or public actors with proven evidence or tangible outcomes that provides evidence and a case or 'pitch' for the next phase of partnership and growth</li> <li>● Searching for funders to finance</li> </ul>	<ul style="list-style-type: none"> <li>● Private local and regional investors</li> <li>● Development Finance Institutions</li> <li>● Public Finance bodies</li> </ul>
Project showcase	<ul style="list-style-type: none"> <li>● Organisations or public actors with an agreement or proven evidence to share with others</li> <li>● Searching for media recognition and sharing lessons with peers</li> </ul>	<ul style="list-style-type: none"> <li>● Organisations / implementers working in the same field</li> <li>● Bilateral and multilateral partners</li> <li>● Development partners</li> <li>● Media</li> </ul>
Innovation & Exhibition hub	<ul style="list-style-type: none"> <li>● Local and regional businesses to showcase their initiatives and innovations in dedicated booths</li> </ul>	<ul style="list-style-type: none"> <li>● Businesses</li> <li>● Investors</li> <li>● Implementers</li> <li>● Policy makers</li> <li>● Youth</li> </ul>

# Session structures: Implementation convening

The objective of the implementation convenings is to create an inclusive pathway for translating prominent pledges made by organisations into action. These sessions will be targeted at peers, ground operators and implementers. **The objective will be to transform initial pledges into tractionable on-the-ground action.** The expected outcome is partnerships between pledgers and implementers and increased accountability to ensure that pledges are actualised.

01

## OPPORTUNITY FRAMING

Each session will open with framing by a moderator who will frame the opportunity, tying the objectives of the session back to the topical plenary session. The framing will highlight the organisations that have established potential in the space and have committed to specific interventions. Thereafter the moderator will highlight cross-cutting needs and/or requirements.

02

## MOVING FROM PLEDGE TO IMPLEMENTATION

The next segment of the session will consist of a maximum of four share-outs highlighting the pledge, expected outcome and core needs. Thereafter the session will pivot to a discussion on the pledges:

- Discussion on the main challenges foreseen in implementing this pledge
- Discussion on what each pledging organisations is looking for in an implementing partner.
- Discussion on the long-term vision for scale potentially across geographies and the broader applicability.
- Discussion on how organisations can work with the pledging organisation in the next stage. Open audience Q&A

03

## FINAL OPPORTUNITY FRAMING & CALL TO ACTION

Final framing of the opportunity and summary of headline pledges with a supporting call to action to initiate partnerships and to implementers to actualise commitments.

\*Additional considerations for each session include expected attendance / capacity.

# Session structures: Deal room

**The objective of deal rooms is to create a platform for organisations to pitch investable opportunities for funding for a specific initiative or opportunity area.**

Within each topic area, a range of deal sizes, geographical coverage, and structured asks will be shared. The target audience will be investors, including a mix of private / commercial, philanthropic and concessional funding entities. The expected outcome will be tangible pathways to and/or deals made between organisations and funders.

Please note that we will be developing additional advice on how to structure these rooms shortly.

01

## OPPORTUNITY FRAMING

Each session will open with framing by a moderator who will frame the opportunity, tying the objectives of the session back to the topical plenary session. The moderator will then introduce the organisations pitching, highlighting the potential of the space if realised and encouraging investors to engage intentionally both within the session and following the summit.

02

## RAPID PITCH SESSION AND BREAKOUT DIALOGUE

The next segment of the session will consist of two rounds of 25 minute pitches from two-three organisations.

Each pitch will culminate in an open audience Q&A. Thereafter the moderator will encourage an open networking session, encouraging individual discussions between those pitching and funders.

03

## FINAL CALL TO ACTION

A final call to action from the moderator, encouraging collaboration between pitching and funding organisations.

*\*All pitching organisations will receive a briefing from AECF beforehand on the structure and expectations of the pitch to ensure consistency. Logistics considerations will need to be made for turnover of each deal room.*

# Session structures: Project showcase

**The objective of the project showcase is to highlight recent deals made, significant milestones, and key learning / best practice from countries, projects and stakeholders in a specific opportunity area.** The showcase will be targeted at peers in the space wanting to learn from best practice that can be applied and tailored to their ongoing initiatives. There is an opportunity for these sessions to be joined or appended to the topical plenary sessions. The expected outcome will be clear learnings across opportunity areas and a spotlight on achievements and tangible gains to date.

01

## OPPORTUNITY FRAMING

Each session will open with framing by a moderator who will frame the opportunity, tying the objectives of the session back to the topical plenary session. The moderator will then introduce the sharing countries and organisations highlighting that these are front runners in this space and actively demonstrating scalable deals and initiatives.

02

## PROJECT SHOWCASE

The moderator will then introduce each organisation, inviting them to the stage to present. The number of presenting organisations will be dependent on whether these sessions are independent or appended to the core plenary session. Thereafter the moderator will invite a panel discussion structured to address the following questions:

- How can each initiative be expanded, replicated, or scaled?
- What are the key lessons learnt, and how is this applicable?
- How can partners engage/leverage this work?
- Open audience Q&A

03

## FINAL SPOTLIGHT AND CALL TO ACTION

The moderator will wrap up the session with a final spotlight, rounding up the headline announcements and deal achievements. The moderator will close the session with a final call to action to the audience.

# Announcements: Criteria for defining announcements

## Crowdsourcing

For each of the themes and sub-themes, teams are to crowdsource investable ideas and inputs from African industry players across multiple networks and stakeholder groups.

Teams have already begun to collect ideas - but only the highest quality and top priorities will end up on the final Summit agenda.

## Announcement Prioritisation

Announcements must clearly align with the climate positive growth lens and have clear milestones to declare in order to be included in the long-list for the Summit.

After initial screening, we prioritise initiatives based on their perceived and real impact: a combination of scale potential, uniqueness, probability of delivery and breadth of coverage for the summit

### Scale potential

To what extent can the initiative deliver climate positive growth outcomes at scale?

### Uniqueness

To what extent is this initiative truly new and unique to Africa? Are there competitors doing the same thing?

### Probability

Will the initiative actually deliver the announceable by September?

### Significance

How significant is this announceable with respect to the challenge?

### Breadth of coverage

Is this announceable related to an area of climate action or African country otherwise not represented in the summit?

## Example submissions

### Prioritised

**Offgrid.finance Pop-Up SPV:** Channelling \$100M of blended climate and commercial capital to cleantech SMEs in Kenya for inventory and asset finance.

Announcement deal: Conclusion of investment capital and initial transactions

### Deprioritised

**Belovast:** Driving change in Kenya industries and business through provision of waste audit data

Announcement pitch: New implementation methodology

# Announcements: Pipeline of deals stands at 150+

## 03 | Session Agenda Outline

# Day 0: Introduction to the summit

The purpose of day 0 is to ease logistics by facilitating early registration. Day 0 will also act as a critical “launch” moment with an initial press event with high level dignitaries and a series of launch events to amplify the beginning of the summit. Delivery of the experiential elements is dependent on the identification of various implementing partners. Day 0 will also be centered around the arrival of delegations to Nairobi & registration and collection of badges and materials by delegations and participants.

Time	Sessions
07.00-17:00	Ongoing registration and collection of badges
10:00 -12:30	<b>Media event and press release</b> to sensitise the media and preemptively engage on key questions. Facilitated by renowned regional and global media channels.
10:00 - 16:30	Series of experiential events
10:00 - 12.00	<b>Call to action event led by youth champions, and featuring community led and regional innovations</b> that integrate sustainable practice.
12.00 - 15:00	Tree planting drive across educational institutions.
13:30 - 16:30	Visits to key sites, including green manufacturing sites. <span style="float: right;"><b>Networking event</b> for participating organisations.</span>

# Day 1: Ministerial Day

The purpose of day 1 is to build momentum around the summit, anchoring the discussion on the notion of Climate Positive Growth, highlighting an overall opportunity-based framing, the specifics of different pathways for economic growth through climate action and the unique role for global south countries.

Time	Sessions
07.00 – 09.00	<ul style="list-style-type: none"> <li>● Registration</li> <li>● Morning breakfast networking event</li> </ul>
09.00 – 10.30	<b>Opening Plenary of the Ministerial Segment of the Africa Climate Summit</b> <i>Kenya, AU, COP28</i>
10.30 – 11.00	<b>Fireside chat</b>
11.00 – 12.30	<b>Nature based solutions for urbanization</b> <ul style="list-style-type: none"> <li>● Water, city planning, buildings and energy efficiency</li> </ul>
Parallel session	<b>Green Resources and Manufacturing</b> <ul style="list-style-type: none"> <li>● Announcement of big Transition Minerals deals</li> <li>● Announcement of big Green hydrogen deals</li> <li>● Discussion on advance market purchase commitments on LMIC green exports</li> </ul>
12.30 – 13.30	<b>Lunch</b>
13.30 – 15.00	<b>Desert to Power: Realizing its Ambition</b> <ul style="list-style-type: none"> <li>● Discussion on Desert to Power Roadmap and Financing Model <i>Sahelian Presidents, Nordic Development Fund</i></li> </ul>
Parallel session	<b>Investment Opportunity for Food Sovereignty in Africa</b> <ul style="list-style-type: none"> <li>● Smallholder based agro-forestry</li> <li>● Low/no-take sustainable fishery zones</li> <li>● Food value chains and processing</li> <li>● Irrigation and relevant technologies</li> <li>● Pastoral livestock sector transformation</li> </ul> <i>Ethiopia, Uganda, Egypt,</i>
15.30 – 16.00	<b>Break</b>
16.00 – 17.30	<b>Youth and the Green Growth Agenda</b> <ul style="list-style-type: none"> <li>● Presentation of key outcomes from Africa Youth Summit discussion on Humanitarian Response to Climate Change</li> <li>● Discussion on the role of the youth in advancing the Green Growth agenda</li> </ul>
Parallel session	<b>Carbon Markets for the Global South</b> <ul style="list-style-type: none"> <li>● 10+ countries committing to getting carbon market regulations complete by end 2024</li> <li>● Financing ETA</li> <li>● UAE/ACMI deal announcement</li> </ul> <i>Colombia, ACMI, John Kerry, Brazil, UAE, Ghana, Rwanda, Tanzania</i>
17.30 – 18.00	<b>Fireside chat with CS Soipan Tuya on Kenya's Carbon Markets</b>
19.30 – 22.00	<b>Ministerial Dinner</b>

# Day 2: Getting down to business

The purpose of day 2 is to deep dive into opportunity areas, creating a spotlight on individual opportunities, their business models and financial viability, as well as tangible progress towards each opportunity area to date. This will also be the day when the majority of the Heads of State will arrive, and the big opening session will happen

Time	Plenary Sessions
08.00 - 09.00	Registration
08.30 - 10.00	<b>EVs and E-mobility</b> <ul style="list-style-type: none"> <li>Infrastructure, grid implications and financing, green minerals use</li> </ul> <i>Kenya, Nigeria, CEOs of EV companies</i>
Parallel session	<b>Investment in Natural Capital</b> <ul style="list-style-type: none"> <li>Progress announcements on 30x30 by 10+ countries and corporate action on nature</li> <li>AFR100 and the promise of local entrepreneurs</li> <li>What will it take to finance JNT-Ps</li> <li>Carbon Removal</li> </ul> <i>Dem. Rep. of Congo, Kenya, Gabon, Cameroon</i>
10.00 - 10.30	Break
10.30 - 11.30	<b>High Level Opening of the Africa Climate Summit</b> <ul style="list-style-type: none"> <li>Welcoming and Opening Remarks by dignitaries</li> <li>Vision for Nairobi Declaration</li> <li>Family Photo</li> </ul> <i>Kenya, AU, COP28, United Nations</i>
11.30 - 13.00	<b>Panel : Charting a vision: Investment opportunities for African Green Growth</b> <ul style="list-style-type: none"> <li>Presentations for 4 country investment plans by ministers</li> <li>Panel debate on provocative financing instruments in addition to debt relief for climate action</li> <li>Alignment on Green Growth framework and key big ideas/ initiatives that need to be unlocked with presidents</li> <li>Showcase 5-6 significant deals</li> <li>Panel discussion on top investment opportunities for Africa</li> </ul> <i>Leading private sector CEOs, including African and non-African, Kenya, Egypt, Nigeria, Zambia, AfDB</i>
13.00- 14.00	Lunch
14.00 - 15.00	<b>Climate Finance</b> <ul style="list-style-type: none"> <li>Presentation on the global cost curve and capital deployment</li> <li>Panel discussion on new Climate Finance mechanisms to be pursued coming out of ACS</li> </ul> <i>Gabon, Cote D'Ivoire, Senegal, Namibia</i>
15.30 - 16.30	<b>Panel: Financing 3 energy transition big ideas</b> <ul style="list-style-type: none"> <li>Natural gas as a transition fuel</li> <li>Transmission grid scale up</li> <li>Inga 3 dam</li> </ul> <i>Dem. Rep. of Congo, Nigeria, Mozambique</i>
16:30 - 17.30	<b>Adaptation and resilience to climate risk</b> <ul style="list-style-type: none"> <li>Cost of inaction (macro and fiscal risks)</li> <li>Discussion to set up parametric insurance at scale</li> <li>Private sector mobilization</li> </ul> <i>Ethiopia, Egypt, Uganda, SIDS</i>
19:30 - 22.00	<b>State Dinner for Heads of State</b>
19.30 - 22.00	<b>Gala dinner for all other VIPs</b>

# Day 3: Making it happen

The purpose of day 3 is to move from discussion to action, with this culminating in the signing of the Nairobi Declaration.

Time	Sessions
08.00 - 16.00	On-going thematic sessions (main venue)
09.00 - 10.30	Private : <b>Finalization of the Nairobi Declaration (State house)</b> <i>Key ministers; private meeting</i>
10.30 - 11.00	<b>Break</b>
11.00 - 13.00	Private and livestreamed: <b>Adoption of the Nairobi Declaration (State house)</b> <ul style="list-style-type: none"><li>● Call-to-Action by Youth</li><li>● Nairobi Declaration signed and adopted by Heads of State <i>Kenya, AU, COP28, Youth</i></li></ul>
13.00 - 15.00	<b>Closing lunch and departures</b>
15.00 - 21.00	<b>Arts and Entertainment Spotlight Event (TBC)</b>
